About

I am a **versatile** professional with a unique blend of creativity and technical expertise.

With a strong background in **computer science engineering**, I have spent the last five years honing my programming skills, bringing complex game concepts to life with precision and efficiency.

In addition, my passion for **3D art**, coupled with proficiency in tools like Blender and Substance, allows me to contribute as an artist in various game development projects.

I bring a comprehensive skill set to the video game industry, combining the artistry of design with the precision of programming to create immersive gaming experiences.

Education

2022-2023

● UPC School

Master's Degree in Advanced Programming for AAA video games

Describe what you did and had done during your time in the collage. Simply enter the most recent two years of your education.
